

HACKATHON ENSTAB 2025

Green AI

20-21 December 2025

Let your AI idea shine!

Submit your solution online for a chance to be selected as one of the five finalists who will present their project at ENSTAB 2025.

25 November 2025 – Opening of submissions

15 December 2025 – Closing of submissions

21 December 2025 – Public pitch & award ceremony at ENSTAB

Registration

Introduction

The **Green IA Hackathon** will take place on **December 20–21, 2025**, at the National School of Advanced Sciences and Technologies (ENSTA) in Borj Cedria.

During the competition, participants will deliver a short presentation, including a real-time demonstration, to convince a diverse audience of the value of their AI project. Their presentation should highlight the following aspects: the motivation behind their project, the approach and methods used, the impact of their solution, and the sustainability of the results achieved.

Rewards

The winning teams will receive:

Laptops

Smartphones

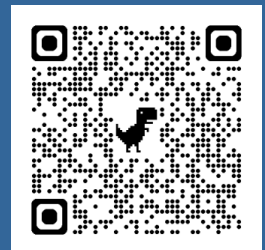

- **Increased visibility** among investors, institutions, and strategic partners
- **Official recognition** within the Artificial Intelligence Hackathon

Target Audience and Eligibility

The hackathon is open exclusively to students from the University of Carthage who are passionate about artificial intelligence and innovation:

- **Students:** from all disciplines within the University of Carthage, looking to develop their skills and apply their knowledge.
- **Researchers:** affiliated with the University of Carthage and leading applied or exploratory projects related to artificial intelligence, particularly in the field of Green AI.

Registration

Participants may register in teams of 2 to 4 members.

Hackathon Timeline

The hackathon will take place over **four key phases**:

Phase 1 – Online Registration (November 25 – December 15, 2025)

Teams complete their registration through an online form:
<https://forms.gle/hiVKdUGTpmYqG8fcA>

Phase 2 – Selection (December 18, 2025)

The pre-selection committee reviews the applications and announces the finalist teams.

Phase 3 – Coaching and Pitch Preparation (December 20–21, 2025)

Finalist teams receive personalized support from expert mentors to refine their project and prepare their final presentation.

Phase 4 – Public Pitch and Award Ceremony (December 21, 2025)

Teams present their projects to a panel of experts during the Hackathon, followed by the official awarding of laptops and smartphones.

Evaluation Criteria

- **Innovation and originality:** 5 pts
- **Societal/environmental impact:** 5 pts
- **Technical feasibility:** 5 pts
- **Clarity of the presentation:** 5 pts
